

Interview guide

Interview guide

- 1) Could you start by introducing yourself and your organisation please ?
- 2) What are, in your opinion, the main challenges that have affected most companies since the beginning of the Covid-19 crisis ?
- 3) Regarding supply chains, how were they disrupted during the Covid-19 crisis ?
- 4) How did companies react to cope with these challenges ?
- 5) How do you think global value chains will evolve after the covid-19 crisis ?
- 6) What do you think about companies bringing back some or part of their production as a consequence of the covid-19 crisis ?
- 7) Do you think that manufacturing will remain global to supply all markets around the world, that it will become more regional with production centres closer to the local markets or do you see another system for the future ?
